

Your Post-Hurricane Assessment Checklist

CHECKLIST FOR HOME

The safety and well-being of your loved ones and yourself is top priority.

eCompliance is supporting our community in any way shape, or form to assist in recovering from this Hurricane and bounce back as quickly as possible.

Our mission at eCompliance is solely based on ensuring everyone goes home safely, every day. Without a safe home to return to, we want to step in and provide a Post-Hurricane Assessment to help with the aftermath of Hurricane Laura.

The purpose of this checklist is to help anyone who is trying to assess the damage to their home from Hurricane Laura, and who is seeking ways to reduce potential hazards.

The information has been sourced from our team of safety experts at **eCompliance**, the **National Institute of Environmental Health and Sciences**, as well as the **Centers for Disease Control and Prevention**.

Here's an overview of the sections included in this Post Hurricane Assessment for your home:

- Home entry
- Utilities (Gas and Electric)
- Seepage and/or Sewer Back-up
- Social services
- Food
- Medication
- Pets
- Family and Friends

Your Post-Hurricane Assessment Checklist

CHECKLIST FOR BUSINESS

As health and safety champions, we know the safety and well-being of your employees is top priority.

With the occurrence of Hurricane Laura, one of the most powerful hurricanes ever to hit the southern region of the United States, we are sure your concern for your employees' wellbeing has increased ten-fold.

Marked as a Category 4 hurricane, it raged through Louisiana and parts of Texas with strong winds and heavy floods on Thursday, August 27th, causing excessive damage to buildings and loss of power for several Americans in the area.

We want to provide assistance and support in any way, shape, or form, to help your organization recover from this difficult experience and bounce back stronger.

Our mission at eCompliance is to help prevent workplace incidents, and we are hoping that this Post-Hurricane Assessment

will help safety champions that are dealing with the aftermath of Hurricane Laura.

The purpose of this Post-Hurricane Assessment is to help mitigate all risks in and around your business.

This checklist should be helpful to anyone assessing the damage to their office building or active worksite, and who is seeking ways to reduce any hazards that are presented. This checklist is also meant to help protect employees and front-line workers.

The information within this checklist has been sourced from our team of safety experts at **eCompliance**, the **Occupational Safety and Health Administration (OSHA) Guidelines**, the **National Institute of Environmental Health and Sciences**, as well as the **Centers for Disease Control and Prevention**.

Here's an overview of the sections included in this Post Hurricane Assessment checklist for your business:

- Building and Worksite Entry
- Utilities (Gas and Electric)
- Seepage and/or Sewer Back-up
- Food and Water
- Employee Communication & Resources
